

■ Wind Loss Mitigation Reports

Add immediate value for your clients while reducing risk and insurance costs.

I provide **Wind Loss Mitigation Reports** that are accepted by major insurance carriers to help homeowners **reduce risk and unlock savings**. Each report includes a **front elevation photo** confirming the onsite inspection and a **concise evaluation** of the home's wind-resistant features.

These reports are especially effective when clients **bundle with their auto insurance**, often triggering **instant premium reductions**. It's a simple, high-impact service that benefits **buyers, sellers, and agents** alike.

Wind Loss Mitigation – Key Highlights

Front Elevation Photo: Clear exterior photo confirming the inspector was onsite. **Exterior Verification:** Quick assessment of doors, windows, and roof for wind-resistant construction. **Insurance-Ready Report:** Concise, carrier-approved format recognized by MetLife, Farmers, and others. **Client Savings:** Maximized when bundled with auto insurance, lowering overall premiums.
