

Ten Things Sellers Will Miss Most

Magical Garden: Every season brings something new to life from various flowers and colors to varying textures that make the entire property feel enchanted.

Views of Green from Every Window: No matter where you stand, you're surrounded by nature. Every glance outside offers calming, lush greenery.

Character & Craftsmanship: From the high ceilings to the rock floor by the entryway, this home has a warmth and charm that we adored so much.

Built with Quality: The house just *feels* solid — thoughtfully constructed and beautifully maintained throughout.

Steps to the Beach: A quick and easy walk down Ocean Street leads to peaceful sandy shores and salty ocean breezes.

Ocean Air & Morning Magic: The scent of the sea drifts through in the mornings, and with the bedroom window open, you can even hear the creek!

Plenty of Flexible Spaces: From home offices to a workout area and more, there's room for every part of your lifestyle.

Deck & Outdoor Living: A favorite spot to relax, entertain and enjoy everything from sunny mornings to quiet evenings.

Living Made Easy: We were able to do nearly all of our living on the main floor (until our third little one arrived!)

Lot & Flowering Trees: The spacious lot offers privacy and beauty, with something blooming nearly every week in spring. And the creek is so fabulous...on a foggy morning, it feels like stepping into a secret garden.
