This six-bedroom, six-and-a-half-bath home in North Center has a fully enclosed yard, a front porch and an attached three-car garage with a rooftop deck. The living and dining area has floor-to-ceiling windows, a gas fireplace and patio doors with access to the covered front porch. A staircase connects all three levels beneath an oversized skylight. In the kitchen are Wolf and Sub-Zero appliances, Shaker-style rift-cut white oak cabinetry, a butler pantry with a sink and wine cooler, a prep kitchen and pantry with a sink, a second dishwasher and an island with bar seating. Upstairs, the primary suite includes a bathroom with a steam shower, freestanding tub, heated flooring, toilet room and dual vanities, plus two walk-in closets with custom organizers. Three additional bedrooms, all with ensuite baths with heated flooring, and a laundry room complete the second level. The finished lower level includes a large family room with a wet bar, a second laundry room, two bedrooms, and two bathrooms. This home is completed by radiant flooring inside the home and a hydronic snow melt system for the front entry walkway, stairs and landing.
