Set within Tehama, one of California's most private and thoughtfully preserved communities, 71 Este Canada rests on 12.32 acres with sweeping views of the Santa Lucia Mountains. Completed in 2025, this extraordinary estate was designed for those who value space, privacy, and a deep connection to the landscape. Thoughtfully conceived as a modern family compound, the property includes a beautifully crafted main residence, a detached ADU with separate-entry guest quarters and office above, and a 'barn' with a 2-car garage, guest unit, and dedicated office. Together, these spaces create an exceptional setting designed for gathering, hosting, working, and retreating, offering the rare flexibility for family and guests to come together while still enjoying privacy and independence. The main residence is warm yet sophisticated, where soaring vaulted wood ceilings, hand-applied plaster walls, radiant-heated floors, and a striking stone fireplace create inviting spaces filled with natural light. Upstairs, the primary suite offers a peaceful retreat with its own view deck, spa-inspired bath, and generous walk-in closet. Whether gathering around the fireplace, sharing a meal on the deck, or relaxing beside the peaceful pool overlooking the rolling hills, every part of the estate invites you to slow down and enjoy the moment. Designed for both quiet retreats and unforgettable gatherings, 71 Este Canada is a home where privacy, natural beauty, and timeless craftsmanship come together in one extraordinary setting.
