

REAL ESTATE AWARDS

JENNY DOYLE

LEADING REALTOR®

HIGHLIGHT OF THE YEAR Seeing happy clients will always be the highlight and what makes us tick. Finding off-market houses is the key to that these days on the buyer side, as well as seeing the before and after on homes pre-listing and post-staging.

GREAT EXPECTATIONS We are creating our own team office space now so we can have great energy, a Milton-local focus and a place to work with clients and vendors.

INSPIRATION I learn so much from each client in whatever avenue of work they are in. Each client is a wealth of knowledge about life in varied aspects if you ask the right questions. Additionally, my children inspire me to be a better person as I see them watch everything in detail.

LASTING LEGACY Shaun Rawls (my original broker 20 years ago) would call me 'the nicest person in real estate' when he would introduce me on panels. I am good with that one to be what sticks.

PASSION PROJECT I am currently doing a large-scale, 15-piece art series of farm-centric pieces called Farm to Tabl. All proceeds will go to helping feed kids in need by partnering with Blessings in a Backpack (blessingsinabackpack.org).

MY "WHY" I have owned different businesses, and my "why" for each has always been the same: I like to help people, really get to know people and find the good in any situation. I surround myself with as great of people as I can and take it day by day, trying to be as positive and helpful as I can be.
