

Four RENOVATION TRENDS FOR HOMEOWNERS

UPDATED KITCHEN

Not trying to redo your entire kitchen? Minor and mid-range kitchen remodels bring high ROI. Plus, small changes like refinished cabinets, updated knobs, or new vinyl or granite countertops can make an area look like new.

BATHROOM REMODEL

A mid-range bathroom remodel can modernize a space and make it more functional for the family. If you want to start small, update fixtures or repaint - you'd be surprised at how these minor changes can transform your space!

CONVERTED SHED

That extra room you're looking for inside the house might be found outside! Consider converting an outdoor shed into your own private hideaway, a hangout space for the kids or even a home gym.

BASEMENT LIVING AREA

A finished basement can become a second living space or even an office depending on your needs.
