Report dimensions are measurements to the exterior boundaries of the exterior walls and the quantity of interior finishing walls prior to any floor finish. Dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior spaces between the perimeter walls and includes interior or exterior components) for the project as Unit boundaries, see Section 2.2 of the Declaration. The area of the Unit, determined in accordance with these defined Unit boundaries, is set forth in the Declaration. Areas that measurements of rooms will both on this floor plan are generally taken at the greatest general measurements (even if the room were a perfect rectangle) without regard for any alcove, bay or other. The area of the actual rooms will typically be smaller than the product obtained by multiplying the stated length times width. All dimensions are approximate and may vary with actual construction and all floor plans and development plans are subject to change. All dimensions of fixtures, appliances, columns and other matters of detail, including, without limitation, sizes of fixtures and dimensions, are conceptual only and are not necessarily included in this plan. Such items are only included if used in the context provided in your purchase agreement.
