Stated dimensions are measured to the exterior boundaries of the exterior, excluding the projection of exterior opening walls and/or flag walls from the dimensions that would be determined by using the description and definition of the finished building description (which generally only includes the interior or space between the perimeter walls and excludes interior or exterior components). For your reference, the area of this unit, determined in accordance with the standard unit boundaries, is set forth on Exhibit 3 to the Declaration. Stated dimensions of rooms set forth in this floor plan are generally based on the greatest points of measurement and do not represent a perfect rectangle, without regard for any columns. Accordingly, the area of the actual room will usually be smaller than the product obtained by multiplying the stated length times width. All dimensions are approximate and may vary with actual construction, and all floor plans and development plans are subject to change.
