MONTANA WELL LOG REPORT

Other Options

This well log reports the activities of a licensed Montana well driller, serves as the official record of work done within the borehole and casing, and describes the amount of water encountered. This report is compiled electronically from the contents of the Ground Water Information Center (GWIC) database for this site. Acquiring water rights is the well owner's responsibility and is NOT accomplished by the filing of this report.

Section 2: Location

Township Range Section 058 04W 33

County

Longitude

-112.0929

Geocode

Geomethod NAV-GPS

Ground Surface Method

Datum NAD83

* During the well test the discharge rate shall be as uniform as possible. This rate may or may not be the sustainable yield of the well. Sustainable

Time of recovery <u>0.5</u> hours.

Pumping water level _ feet.

Recovery water level 64 feet.

35 gpm with drill stem set at 135 feet for 1 hours.

Section 7: Well Test Data

Total Depth: 140

Air Test *

Static Water Level: 64

Water Temperature:

Datum Date yield does not include the reservoir of the well casing.
