

Welcome to Our Copper Mountain Home!

We hope you enjoy exploring the space! Here are a few features that you may not notice at first glance.

Ski Living Made Easy

- You can ***ski in*** the building's back door! And the *Super Bee* lift is just a short walk. This kind of access means no shuttles, no finding or paying for parking.

Storage

- An additional private storage closet is located in the hallway (to right of front door), perfect for extra gear.

Heated Garage

- Assigned heated indoor parking space making arrivals & departures comfortable.
- Private storage closet conveniently located at the parking space that's perfect for bikes, skis, snowboards, and other gear.

Office

- The space beneath the stairs has been thoughtfully converted into a cozy home office; offering a spot to work remotely while enjoying mountain life.

Kitchen

- Custom under-cabinet lighting can be controlled with an app. Set schedules, adjust colors for holidays or special occasions, or enjoy preset modes such as Movie Mode.
- The refrigerator and dishwasher were both upgraded in 2025.

Living Room

- Warm up after a day on the mountain with the push-button gas fireplace.

Playroom / 4th Bedroom

- The current playroom includes a slide for a fun, unique touch. If preferred, we are happy to remove the slide and restore the wall before closing.

Primary Suite

- The primary bathroom features heated floors with programmable scheduling, so you can wake up to warm floors on chilly mornings.

Bedroom #2

- The jungle gym can be removed if desired.
- For reference, when we purchased the home, this room comfortably accommodated two queen-size beds with plenty of space remaining.

Bedroom #3

- Spacious enough to accommodate multiple beds, ideal for guests, kids, or flexible sleeping arrangements.

Laundry

- Private in-unit laundry with a lockable laundry closet for your personal gear.
- For owners who choose to rent the property, the building also provides complimentary laundry machines in the garage for guests.

One-of-a-Kind Rooftop Deck

- *One of our favorite features!* Enjoy your own private rooftop deck with panoramic mountain views. Watch the Center Village fireworks from the comfort of home—no crowds, just an incredible front-row seat.
- Includes a convenient rooftop storage shed.

This home has been an incredible place for us to gather with family, enjoy every season at Copper Mountain, and make lasting memories. We hope you'll be able to picture creating your own here.
