The Standard Features of the home are determined by your builder at time of sale, NOT the Design Gallery. If together you and your Designer did not list a charge for an option, you will be notified and given the option to delete the upgrade or make a revision to your paperwork to include the option. Additional deposits may also be required at the time of the revision.

After the original selections are finalized and signed off, changes, additions, or deletes to this paperwork (if allowed by your builder) will require a Design Gallery re-processing fee of \$150.00 per hour in addition to the Change Order fee that may be required by your builder.
