

A Note From the Homeowners

When we first walked into this home, we loved the modern look, the natural light and how open everything felt. It was beautiful, but it also felt comfortable and easy to live in.

The kitchen and great room are where we spend most of our time. The island is where everyone gathers when family is here, and the messy kitchen has been one of those features we use every day. It is so nice to have a place to keep the small appliances, prep and everyday clutter out of sight.

Some of our favorite evenings have been spent on the covered patio. The trees behind the home give us privacy all year long, and the backyard feels peaceful in every season. We have loved sitting outside, enjoying the landscaping and just having a quiet place to unwind.

We are members at The Lakes Golf & Country Club and have really enjoyed being so close to the club and golf course. Being part of that community has been one of the things we have loved about living here.

We also spend a lot of time in Florida, so having the HOA take care of the lawn and snow has been a huge convenience. We can leave town knowing those things will be handled while we are away.

The upstairs has been a real bonus when family comes to visit. Having a bedroom, full bath and bonus room gives everyone their own space, and the grandkids love having an area to themselves. On a normal day, we still have everything we need on the main floor.

We have put a lot of love into this home and have made so many great memories here. We will miss the privacy, the terrace and the easy lifestyle. We hope the next owners love it as much as we have.

Warmly,
The Millers
