(I) Flood Insurance, Flood Maps and Flood Risk

Federal law requires owners to obtain and maintain flood insurance for properties financed with a federally regulated or insured mortgage in a Special Flood Hazard Area, also known as a high-risk zone on FEMA's flood insurance rate maps. In addition, for properties that have previously received federal disaster assistance, owners are required to obtain and maintain flood insurance as a condition to be eligible for future assistance. This requirement affixes to the property and applies to all future owners. FEMA flood maps are not designed, nor intended to be, a reliable tool for buyers to assess a property's flood risk. A property does not have to be near water or in a flood zone to flood. For additional information on obtaining important flood insurance, contact an insurance professional.
