(A) Responsibilities of Real Estate Brokers

This report in no way relieves a real estate broker of his or her obligation under the provisions of section 20-328-5a of the Regulations of Connecticut State Agencies to disclose any material facts. Failure to do so could result in punitive action taken against the broker, such as fines, suspension or revocation of license.

(B) Statements Not to Constitute a Warranty

Any representations made by the seller on the written residential property condition report shall not constitute a warranty to the buyer.

(C) Nature of Report

This Residential Property Condition Report is not a substitute for inspections, tests, and other methods of determining the physical condition of the property.

(D) Information on the Residence of Convicted Felons

Information concerning the residence address of a person convicted of a crime may be available from law enforcement agencies or the Department of Public Safety.

(E) Building Permits and Certificates of Occupancy

Prospective buyers should consult with the municipal building official in the municipality in which the property is located to confirm that building permits and certificates of occupancy have been issued for work on the property.

(F) Home Inspection

Buyers should have the property inspected by a licensed home inspector.

(G) Concrete Foundation

Prospective buyers may have a concrete foundation inspected by a licensed professional engineer who is a structural engineer for deterioration of the foundation due to the presence of pyrrhotite.

(H) Dam

Information concerning the registration and categorization of a dam on the property may be obtained from the Department of Energy and Environmental Protection.

(I) Flood Insurance, Flood Maps and Flood Risk

Federal law requires owners to obtain and maintain flood insurance for properties financed with a federally regulated or insured mortgage in a Special Flood Hazard Area, also known as a high-risk zone on FEMA's flood insurance rate maps. In addition, for properties that have previously received federal disaster assistance, owners are required to obtain and maintain flood insurance as a condition to be eligible for future assistance. This requirement affixes to the property and applies to all future owners. FEMA flood maps are not designed, nor intended to be, a reliable tool for buyers to assess a property's flood risk. A property does not have to be near water or in a flood zone to flood. For additional information on obtaining important flood insurance, contact an insurance professional.

FOUNDATION ADVISORY: Foundation cracks, problems or failures may be a result of many factors including but not limited to chemical compositions in foundation materials or natural occurrences at any time during the life of a property. Reports of issues with concrete foundations in some residential homes and condominium complexes in Connecticut prompted the State of Connecticut's Department of Consumer Protection (DCP) to develop information for consumers and to conduct an investigation to identify the extent and scope of the issue, as that is not fully identified. Professional Engineers can provide guidance and expert assistance into aspects of foundation problems and concerns.

The DCP information for consumers on concrete foundations may be viewed online and printed from the DCP website, <http://www.ct.gov/dcp>, search "concrete foundations". **That official information continues to be updated by DCP as new information becomes available**, and includes the latest update on the state investigation into the cause of the crumbling foundations, a brochure with pictures of visible foundation cracks, how to verify a Professional Engineer license, insurance information, and other information they have determined is important for consumers to know about and related to concrete foundations.
