Video Walk-Through

Gated and private, this open-plan residence was custom-designed by architect Frank Israel with dramatic angles, abundant glass, high ceilings, expansive skylights, and hardwood floors. Along one axis is the formal living room with fireplace, dining room, stunning gourmet kitchen, & family/media room with floor-to-ceiling windows. One bedroom wing includes 2-en-suite bedrooms plus the glass/steel/wood master suite with fireplace, luxe bath, large closet, & access to pool courtyard on one side & ocean view patio on the other. Second wing has two more en-suite bedrooms & bonus/bedroom/office. Large upper level office enjoys views of pool courtyard & the ocean. Beautifully landscaped backyard designed by Jay Griffith features lap pool, outdoor shower, multiple dining/seating areas, raised planters, & meandering trails. At the entrance, there is a 3-car garage plus guest parking. Lauded for its unique color, form, and flow, this is an exceptional residence of rare pedigree & quality.
