Video Walk-Through

This Stephen Kanner designed Malibu beach front masterpiece is a modern, yet cozy home situated on over 60 feet of private, sandy beach. The home boasts 3 spacious oceanfront decks with easy access, all with expansive views of the sea life and surf. The front entry opens up to a spacious media room and open kitchen with granite countertops and new stainless steel appliances with modern cabinetry. Downstairs, the home has another entertaining room, wet bar, two large en-suites, each with their own fireplaces and private, spacious bathrooms, and a separate laundry room. Upstairs, youll find the master bedroom with gorgeous views, fireplace and another luxurious master bathroom. Across the hall is another bedroom with a private bathroom. Every room comes equipped with powered shades so you can enjoy the sunshine, or dim the lighting to enjoy some peace and quiet.
