A Rare Combination of Space, Privacy & Refined Living

From the light-filled interiors and flexible first-floor living spaces to the extraordinary gardens and secluded grounds, 7819 Ellenham Avenue has been thoughtfully shaped for gracious living. Its architectural evolution, generous scale, first-floor primary suite, beautifully equipped kitchen, screened porch, and extensive outdoor amenities create a home equally suited to quiet daily life and memorable entertaining.

The additional .5-acre lot further distinguishes this offering, providing an uncommon sense of openness and possibility in the heart of Ruxton. Beautifully established and carefully improved over decades, this is a property of enduring character in one of Baltimore County's most desirable residential settings.

Designed for Everyday Living & Entertaining

The home's thoughtful layout creates natural transitions between formal and informal spaces. The kitchen, family room, den, screened porch, patios, and gardens work together as an inviting sequence for entertaining, while the first-floor primary suite, offices, mudroom, laundry, and generous storage provide the ease and functionality essential to daily living.

Architectural details and carefully selected materials give each space its own identity, while the home's extensive windows and garden views create a consistent connection to the landscape. The result is a residence that feels gracious without being formal, substantial without sacrificing warmth, and private while remaining ideally situated in Ruxton.
