BURKE TYREE — CLOSED SALES ACROSS MONTANA

26 of 56 counties · 197 transactions · numbers show closed sales per county

MONTANA ISN'T ONE MARKET

A one-town agent prices your property against the ten sales they know. Burke has priced ranchland in Chouteau County, lakefront at Lakeside, commercial on Butte's Main Street and family homes in Great Falls — every property type Montana has. His number is built on a bigger sample of Montana than any single-market agent can offer.

YOUR BUYER ISN'T FROM YOUR TOWN

Closings in 40+ cities mean a buyer and referral network that spans the state. Burke connects the buyer in Kalispell to the seller in Lewistown — because he's already done business in both.

HE SHOWS UP

Fort Peck got the same broker as Great Falls. Forsyth got the same broker as Kalispell. An agent who has closed deals 300 miles from his desk will never make you wonder whether your property is worth his time.

ONE RELATIONSHIP, EVERYTHING YOU OWN

The house in Great Falls, the cabin on Flathead Lake, the land out east. Most people need three or four agents for that. Burke's clients need one — for every deal they'll ever do in Montana.

Anyone can promise you the whole state. Burke Tyree can hand you the map.
