Your net energy at a glance

Way to go! Compared to others, your net energy moved in the right direction.

How your net energy compares to other homes with solar

*Efficient homes with solar are the 20% of homes in your comparison group with the lowest net energy. **Net energy** is the difference between the amount of electricity your solar panels produce and the amount of electricity and gas you use. To learn more, visit www.pge.com/nem.

A unit is a combined measurement of electricity (kWh) and gas (therms) use.

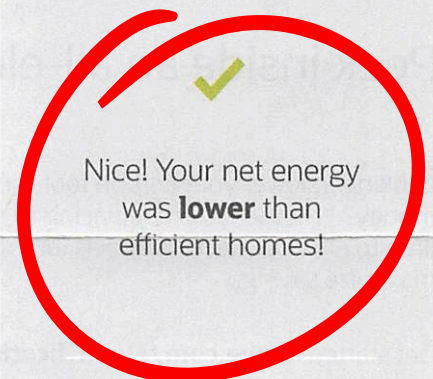

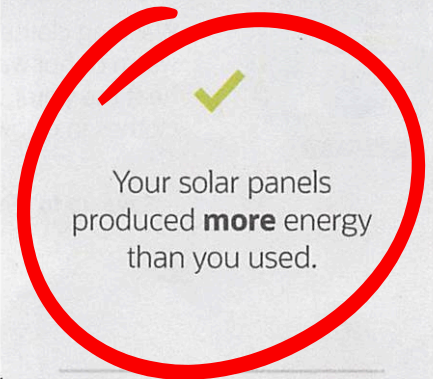

Questions about your Home Energy Report?

We use data we have about your home to find 100 nearby solar homes with similar heating and cooling sources and square footage. Update your home information in the Home Energy Checkup at pge.com/checkup to make sure your report is based on the most updated information.

For more information, explore our FAQ page at pge.com/homeenergyreportfaqs.
