Dear Mr. Iadisernia:

The Chicago Athenaeum: Museum of Architecture and Design in association with The European Centre for Architecture Art Design and Urban Studies and Metropolitan Arts Press, are pleased to announce the dates for the 2021 American Architecture Awards.

The deadline for 2021 built and unbuilt building submissions is FEBRUARY 1, 2021.

Now celebrating its 27th year, The American Architecture Awards recognize the best new corporate, commercial, institutional, and residential buildings, including corporate interiors, restorations, renovations, and urban planning projects, designed and/or built in the US. and throughout the world.

This Distinguished Building Awards Program is dedicated to the recognition of Design Excellence in architecture produced in the United States and globally. The emphasis is on design innovation, engineering, use of new materials, and a sensitivity to the environment.

In 2020, a jury of Greek architects, educators, critics, and developers awarded over 130 buildings, landscape designs, and urban planning projects.

Those awarded projects for 2020 can be viewed at our Museum's website at www.chi-athenaeum.org or www.americanarchitectureawards.com.

For this 2021 edition, we are anticipating the best new American architecture from the most prestigious design practitioners in the U.S. All projects must have been designed or built as of January 1, 2019.

In April 2021, a jury of recognized business professionals, educators, and critics will review the submissions and select winning projects for Awards. In May, a public announcement will be made officially to the press and to the public with a Gala Awards Presentation scheduled in Los Angeles in the Spring.

Winning submissions are published and exhibited at The Chicago Athenaeum and included in the *Global Design + Urbanism XXI* documenting the best new American Architecture for 2021.
