Standard square footage and dimensions are measured to the interior boundaries of the exterior walls and do not include common elements. Dimensions are measured to the center of the wall. The "Gross" area includes the interior space between the exterior walls and includes all interior structural components and other common elements. This method is generally used in sales materials and is provided to allow a prospective buyer to compare the Units with units in other condominium projects that utilize the same method. For your reference, the area of the Unit, determined in accordance with these defined calculations, is set forth as Exhibit "D" to the Declaration. Measurements of rooms set forth on this floor plan are provided for reference only and are not intended to be used for any other purpose. All dimensions are estimates which may vary with actual construction, and all floor plans, specifications and other development documents subject to change and will not necessarily accurately reflect the actual construction and specifications for the development. All dimensions, finishes, fixtures, floor coverings and other matters of detail, including, without limitation, items of finish and decoration, are conceptual only and are not necessarily included in the Unit.
