Subject: Radon Test Report #20154064

To view your full report, click [here](#).

This radon test was provided to you by SWAT ENVIRONMENTAL OF PA / 610-674-4421.

Your radon result is here!

Kit #	20154064
	Analyzed on 10/06/23
Test	Activated Charcoal
Started	09/29/23 at 12:00 pm
Ended	10/01/23 at 5:00 pm
Location	Basement
Type	FIRST

Closed house conditions maintained during test.

What does my result mean?

The US EPA action level for indoor radon is 4.0 pCi/L. The EPA indicates that there is little short-term risk with test results in this range (0.6 to 1.9 pCi/L). However, because radon levels fluctuate daily, as well as seasonally, you may want to retest during another season. Additionally, if you make any structural changes or start to use a lower level of the building more frequently, you should test again.

You may be able to obtain additional information about radon related subjects by calling your state radon officer at 800-232-0842. Or call the "Radon Fix-It Line" at 800-644-6999 Monday thru Friday between NOON and 8 pm EST.
