Radon Guidelines for Drinking Water

Maine's current Maximum Exposure Guideline (MEG) for radon in well water is 4,000 pCi/L. For further information, call the Maine Radiation Control Program at 1-800-232-0842.

If Your Radon Level Is High

Radon in water can be reduced by a number of different methods. Any remedial work should be done by a mitigation contractor, registered with the state of Maine. After completion of remedial work, NEL can re-test the water to verify that the contractor's remedy was effective.

EPA To Adopt Water Radon Standard

The U.S. Environmental Protection Agency is currently considering a maximum concentration limit between 300 pCi/L and 4000 pCi/L for public water supplies. Questions concerning public water supplies should be directed to the State of Maine Drinking Water Program 207-287-2070. Information on the health risks from radon in water is available from the State of Maine Radiation Control Program by calling 1-800-232-0842.

Should you have any questions concerning your radon test result, please feel free to call us.

Thank you for using NEL testing services. Contact NEL for your other environmental analytical needs, including water testing for lead and arsenic or indoor air quality.

Authorized By

Andrew McCaw, Laboratory Supervisor

Review Date

5/18/2021

Note: NEL meets EPA requirements for radon testing. The State of Maine Radon Registration Act (22 MRSA sec. 771 et seq.) requires this laboratory to report the test results, zip codes and street addresses of the structures tested.

Analytical results and reports are generated by NEL at the request of and for the exclusive use of the person or entity (client) named on this report. Results, reports, or copies of same will not be released by NEL to any third party without the prior express written consent from the client named in this report. This report applies only to those samples taken at the time, place, and location referenced by the client. This report makes no express or implied warranty or guarantee as to the sampling methodology used by the individual performing the sampling. The client is solely responsible for the use and interpretation of these results and NEL makes no express or implied warranties as to such use or interpretation. NEL is not able to make and does not make a determination as to the environmental soundness, safety, or health of a property from only the samples sent to their laboratory for analysis. Unless otherwise specified by the Client, NEL reserves the right to dispose of all samples after the testing of such samples is sufficiently completed. NEL liability extends only to the cost of the testing. NRSB Reg# ARL1401.

ME REG# SPC3.
