

943 Peachtree Street Unit 1109

Reasons I Loved Living Here

What drew me to this home initially, first and foremost, was the security I felt immediately when stepping onto the condominium grounds. The parking arrangement felt secure along with access in and out of the building. 24/7 concierge was always a pleasure and made for a welcoming experience each and every time I entered and exited.

They were always accommodating if I had issues, and it never felt as if I was a burden. The pool area/garden area was always a major appeal for me. This area offered a great pool experience with plenty of seating with grills available for hosting get-togethers. In the winter this area offers a unique sitting area with fire places. The location was also one of the major draws for me. I had access to different groceries within walking distance if needed or even a hardware store for emergencies. The food in the area is incredible with different delicacy options from around the world, making entertaining easy.

Now on to the facility itself, which offers entertainment options throughout the year. For example, the free coffee in the morning until 10am which is an opportunistic time to meet local residents. Pool parties which more often than not offer free food and drinks. Holiday event parties and even the occasional show events like magic shows. Event posting for meet and greets with other resident owners. The community here is more than accommodating and I highly recommend joining their Facebook page. On their community page you can get vibe with other community members, view items up for sale, grab an extra parking spot for a friend or family member, and other odd and end events/topics.

This place truly made me feel like I was part of a community and I never felt alone.
