

## **LIVING HERE: THINGS WE LOVED**

**425 Chapel St SW #1109**

This started as the perfect place to enjoy city life solo - easy to walk out the door for dinner at No Mas Cantina (one of our favorites!), catch a game at Mercedes-Benz Stadium, or hop on MARTA. Over time, it's been just as great for us as a couple. Weekend mornings with coffee on the balcony overlooking the pool and evenings with a drink in hand have become part of our treasured routine.

The neighborhood is so fun, we walk every where, with favorite spots like the Signia Hotel nearby and all the new restaurants and shops coming in to the Phoenix Hotel and Mitchell Apartments areas. Being able to walk to so many places has made it feel like the city is right at our doorstep, while still being only 15 minutes to the airport when we want to get away.

We've loved how well-built this home is, the high ceilings and natural light that make the condo feel open and welcoming, along with the convenience of so many newer updates that have kept things easy to maintain.

It's been a great place to enjoy everything Atlanta has to offer. We've totally had a blast living here and know you will too.
