

# *What We Love*

We have cherished our cute little cottage for the last 3 years. It has truly been our happy place where we have created lots of memories with family and friends.

We enjoyed so many peaceful nights on the porch relaxing and looking out at the ocean. The waves are just like a real life sound machine!

We have a great cook in the family so the large, open kitchen has been perfect for prepping great meals at home!

The neighborhood is a great community. The two pools and community deck area are just steps from the cottage, and we are walking distance to the beach!

We have also loved being so close to the village with lots of great restaurants, local shops and entertainment. (The Half Shell is one of our personal favorites. We love to head there after a long day in the sun for cocktails and oysters!)

Owning this place has truly been a dream come true!
