

What We Love About the House...

We have called Maple Forge Drive home for 8 years and 4 months, and we have truly loved every moment here. The house has been the perfect size for our family and our four children, offering both comfort and room to grow.

Our kids love soccer, and the backyard has been one of our favorite features—it's large, level, and ideal for running, playing, and burning off energy outdoors. We also cherish the privacy provided by the surrounding wooded area. The kids have spent countless hours riding their dirt bikes through the woods, creating their own little paths along the way. The extra driveway has been another great bonus, making it easy and convenient to host guests without worrying about parking.

The neighborhood itself is incredibly welcoming. Our neighbors are kind, friendly, and have truly become friends over the years. With so many other kids nearby, our home has naturally become a gathering place for our children and their friends, which we've loved.

We've also really enjoyed the nearby Village at Oak Grove shopping center. Having Publix, Sugar Polish, and Pet Wellness Plus so close has been a wonderful convenience and some of our favorite recent additions to the area.
