B. Certification

's Signature

I certify that: I am a DEP approved system inspector in full compliance with Section 15.340 of Title 5 (310 CMR 15.000); I have personally inspected the sewage disposal system at the property address listed above; the information reported below is true, accurate and complete as of the time of my inspection; and the inspection was performed based on my training and experience in the proper function and maintenance of on-site sewage disposal systems. After conducting this inspection I have determined that the system:

| 1. | | Passes |
|----|---|---|
| 2. | | Conditionally Passes |
| 3. | | Needs Further Evaluation by the Local Approving Authority |
| 4. | | Fails |
| | | |
| | 4 | 5/27/2025 |

The system inspector shall submit a copy of this inspection report to the Approving Authority (Board of Health or DEP) within 30 days of completing this inspection. If the system has a design flow of 10,000 gpd or greater, the inspector and the system owner shall submit the report to the appropriate regional office of the DEP. The original form should be sent to the system owner and copies sent to the buyer, if applicable, and the approving authority.

Please note: This report only describes conditions at the time of inspection and under the conditions of use at that time. This inspection does not address how the system will perform in the future under the same or different conditions of use.

C. Inspection Summary (cont.)

If you have answered "yes" to any question in Section C.5 the system is considered a significant threat, or answered "yes" to any question in Section C.4 above the large system has failed. The owner or operator of any large system considered a significant threat under Section C.5 or failed under Section C.4 shall upgrade the system in accordance with 310 CMR 15.304. The system owner should contact the appropriate regional office of the Department.

6. You must indicate "yes" or "no" for each of the following for all inspections:

| Yes | No | |
|-------------|-------------|---|
| \boxtimes | | Pumping information was provided by the owner, occupant, or Board of Health |
| | \boxtimes | Were any of the system components pumped out in the previous two weeks? |
| \boxtimes | | Has the system received normal flows in the previous two week period? |
| | \boxtimes | Have large volumes of water been introduced to the system recently or as part of this inspection? |
| \boxtimes | | Were as built plans of the system obtained and examined? (If they were not available note as N/A) |
| | \boxtimes | Was the facility or dwelling inspected for signs of sewage back up? |
| \boxtimes | | Was the site inspected for signs of break out? |
| \boxtimes | | Were all system components, excluding the SAS, located on site? |
| | | Were the septic tank manholes uncovered, opened, and the interior of the tank inspected for the condition of the baffles or tees, material of construction, dimensions, depth of liquid, depth of sludge and depth of scum? |
| | | Was the facility owner (and occupants if different from owner) provided with information on the proper maintenance of subsurface sewage disposal systems? The size and location of the Soil Absorption System (SAS) on the site has been determined based on: |
| \boxtimes | | Existing information. For example, a plan at the Board of Health. |
| \boxtimes | | Determined in the field (if any of the failure criteria related to Part C is at issue approximation of distance is unacceptable) [310 CMR 15.302(5)] |

E. Report Completeness Checklist

Complete all applicable sections of this form inclusive of:

- A. Inspector Information: Complete all fields in this section.
- B. Certification: Signed & Dated and 1, 2, 3, or 4 checked
- - 1, 2, 3, or 5 completed as appropriate
 - 4 (Failure Criteria) and 6 (Checklist) completed
- D. System Information:
 - For 8: Tight/Holding Tank Pumping contract attached
 - For 14: Sketch of Sewage Disposal System drawn on pg. 16 or attached
 - For 15: Explanation of estimated depth to high groundwater included
