MARKET ACTION INDEX

This answers "How's the Market?" by comparing rate of sales versus inventory.

Strong Seller's Market

MARKET NARRATIVE

The market continues to get hotter. More sales demand and fewer homes listed have contributed to a relatively long run of increasing prices. Current supply and demand levels show no sign of prices changing from their current trend.

Strong Seller's Market

MEDIAN LIST PRICE

Price trends continued their recent uptrend this week. While still below the market's price high-point, we've seen a nice run recently.

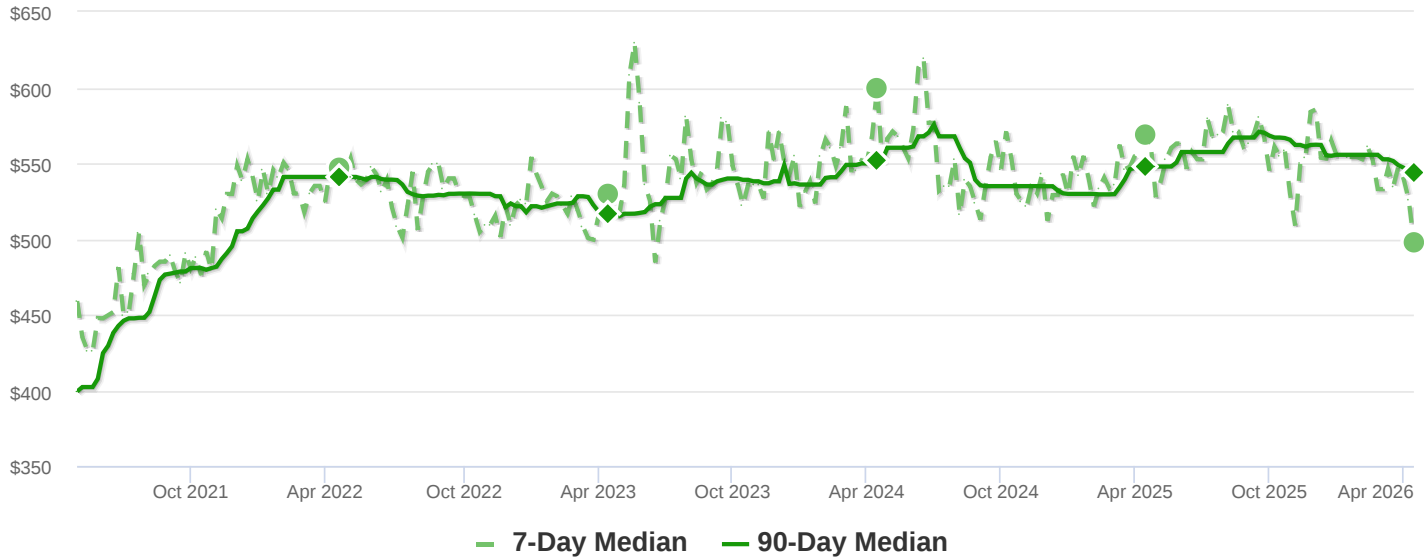

SEGMENTS

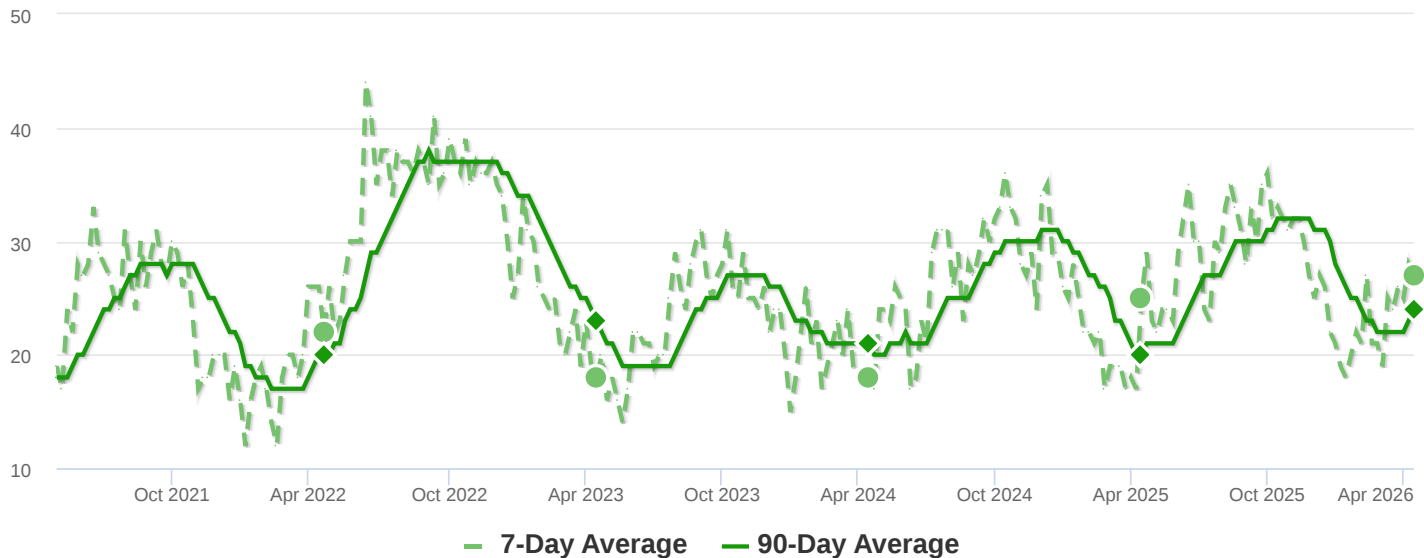

PRICE PER SQUARE FOOT

This is a market where watching the value metrics (like price per square foot) can provide insight that you don't get at first glance. Despite the fact that home prices are rising fairly consistently, the price per square foot of homes listed is declining. Often this can be attributed to new and remodeled homes on the market. Buyers in the area are paying more but also getting more for their money.

INVENTORY

Inventory has been climbing lately. Note that rising inventory alone does not signal a weakening market. Look to the Market Action Index and Days on Market trends to gauge whether buyer interest is keeping up with available supply.

MARKET ACTION INDEX

The market continues to get hotter. More sales demand and fewer homes listed have contributed to a relatively long run of increasing prices. Current supply and demand levels show no sign of prices changing from their current trend.

MARKET ACTION SEGMENTS

MEDIAN DAYS ON MARKET (DOM)

The properties have been on the market for an average of 78 days. Half of the listings have come newly on the market in the past 42 or so days. Watch the 90-day DOM trend for signals of a changing market.

SEGMENTS

It is not uncommon for the higher priced homes in an area to take longer to sell than those in the lower quartiles.
