Strong Seller's Market

MARKET NARRATIVE

The market has been cooling over time and prices plateaued for a while. Despite the consistent decrease in MAI, we're in the Seller's zone. Watch for changes in MAI. If the MAI resumes its climb, prices will likely follow suit. If the MAI drops consistently or falls into the Buyer's zone, watch for downward pressure on prices.

Strong Seller's Market

MEDIAN LIST PRICE

We continue to see prices in this zip code bounce around these current levels. Look for a persistent down-shift in the Market Action Index before we see prices dip. A persistent increase in Market Action could indicate prices will test their previous high points.

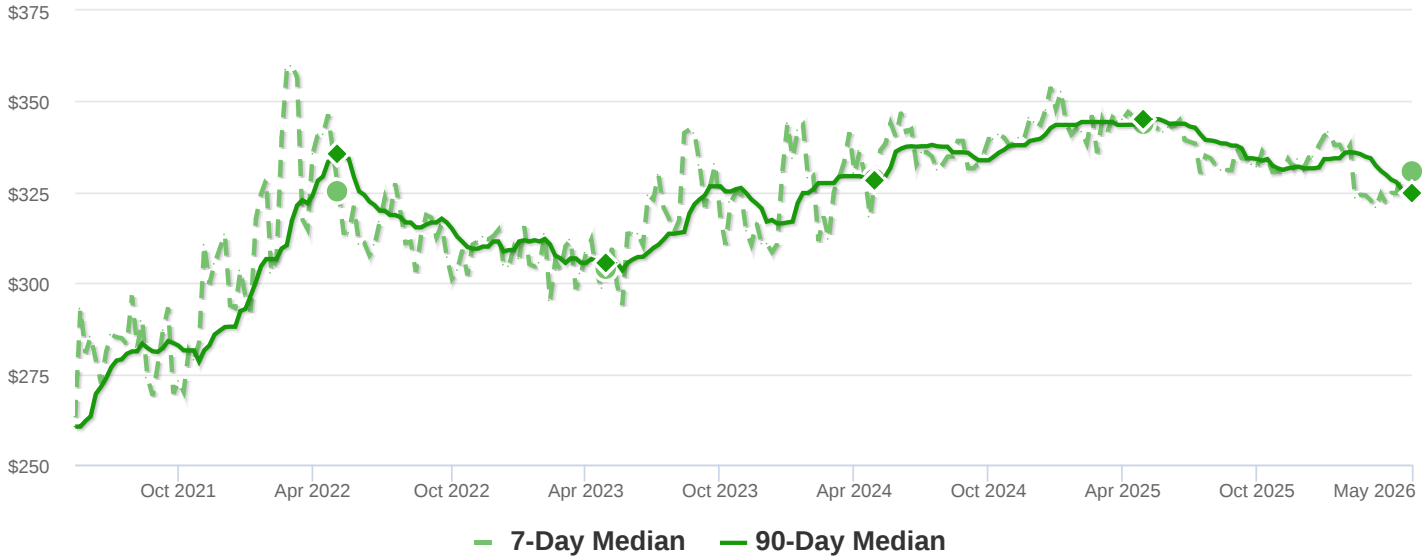

SEGMENTS

PRICE PER SQUARE FOOT

The market plateau is seen across the price and value. The price per square foot and median list price have both been reasonably stagnant. Watch the Market Action Index for persistent changes as a leading indicator before the market moves from these levels.

INVENTORY

Inventory has been climbing lately. Note that rising inventory alone does not signal a weakening market. Look to the Market Action Index and Days on Market trends to gauge whether buyer interest is keeping up with available supply.
