### *Our Warranty*

Upon investing your new home, you will receive full documentation of warranty terms and conditions. Our valuable Homeowner Portfolio manual will explain the entire building process, care and maintenance guidelines, plus our warranty information. We want every homeowner to be informed, thus ensuring a positive experience. Prior to closing, buyers are invited to a full inspection, during which our team will explain the operation of the mechanical systems, provide maintenance suggestions and answer any questions. Following the closing, our Customer Service Department will contact you to determine if you have identified any warranty service items needing attention. Throughout the balance of the one-year limited warranty, we will address any warranty items identified by you.
