

A bright, modern dining room featuring a rustic wooden table and white plastic chairs with wooden legs. A large, arched window on the right side provides a view of a green yard and a wooden fence. A large, cylindrical, woven pendant light hangs from the ceiling. In the background, a wicker side table holds various decorative items, and a framed abstract painting is on the wall.

Stable Home Staging

WE STAGE ALL OUR HOMES AT NO COST TO YOU

Why We Stage Every Home

We couldn't find staging that truly felt like home, so we built it ourselves.

When nothing out there matched the warmth, quality, and attention to detail we wanted for our listings, we created our in-house staging team, **Stable Home**.

We stage every listing thoughtfully and at no cost to our clients.

Here's what makes it different:

Complimentary with every listing

Full-service staging is part of the experience for every seller we work with.

Built from the inside out

Because Stable Home is part of Stable Properties, we own the entire process, from furniture to final photos.

Designed to feel like home

We create lived-in, welcoming spaces that help buyers instantly picture themselves there - warm, natural, and memorable.

Staging isn't optional, it's essential.

Here's the numbers to prove it.

- ✓ 85% of staged homes sell for 5-23% over the list price
- ✓ 95% of buyers look at listings online first
- ✓ Staged homes spend 73% less time on the market

Staging, the Stable Way.

Stable Home is full-service, in-house, and design-led.

As part of Stable Properties, Stable Home gives us total control over quality, timing, and style so staging never slows you down, and always raises the bar.

Our Services:

Vacant & Occupied Home Staging

Whether the home is empty or lived-in, we furnish and style it to showcase its full potential.

Design Consultations

We help sellers refine and reposition existing pieces for maximum visual impact.

In-House Inventory

Our warehouse is stocked with curated furniture, art, lighting, and accessories for any style of home.

Photography-Driven Styling

With a background in real estate photography, we know how to style rooms that shoot beautifully and sell quickly.

Every home is different, so our staging is too.

We don't believe in one-size-fits-all staging. Instead, Stable Home takes a personal approach, designing each space to highlight what's special, timeless, and market-ready.

Home First

Every staging is tailored to the home's style, layout, and character.

Buyer-Driven Design

We consider your buyer's lifestyle and expectations. Efficient and Elevated: Because it's all in-house, we work on your timeline, fast and flawlessly.

Creative Control

Our background in photography and design means we understand how a space should feel and how it should show.

A soft-focus photograph of a dining table setting. In the upper left, a white ceramic pitcher holds several pink flowers with green leaves. The table surface is a light grey or blue-grey. Several round, woven placemats in a light tan color are visible. One placemat in the foreground holds a folded white napkin with thin grey stripes and a sprig of green herbs. The text 'THE GOAL:' is in a small, white, sans-serif font, and 'a house that feels like home' is in a large, white, serif font, both centered over the image.

THE GOAL:

a house
that feels
like home
