

MATCHED BEFORE HE EVER ARRIVED.

Some homes find their owner through a listing. This one found its owner through a relationship. When a longtime referral was ready to add 30A to a life already lived in the mountains and in the city, The Richards Group immediately knew the residence that fit—one with nearly 6,000 square feet in Blue Mountain Beach, a rooftop deck framing the Gulf, and the rare gift of deeded beach access. We represented the buyer and paired the two before he ever set foot on the coast. That is what it means to know 30A. Before you search, start with a conversation.
