## Notes:

3/23/26 - Roland, Niko and Chris went to address the issues for the furthest crawlspace duct and the kitchen range/microwave vent. Glyn had already performed a spring maintenance service on the HVAC unit and repaired a most of the crawlspace ductwork that was torn or damaged.

3/6/26 - Glyn went on the spring maintenance/HVAC home inspection visit.

Ductwork is in good condition. Glyn did some minor duct repair on a couple of the existing ducts. He changed the batteries in the thermostat, changed the filter, and performed a maintenance service on 1 unit as follows:

He cleaned the outdoor unit and checked the voltage, pressures, capacitor, contactor, refrigerant levels, line set temperatures, and wiring. Everything checks good and the system is operating properly at this time.
