1138 Morrison Heights Drive | Oakville

HALF ACRE LOT ON ONE OF SOUTH EAST OAKVILLE'S BEST STREETS

Situated on an extremely private, over half acre lot and backing onto Morrison creek, this custom-built family home is surrounded by towering trees and is truly a private oasis. The stone and stucco exterior make this home both warm and inviting and is highlighted by the circular driveway with parking for multiple vehicles.

The solid oak entry reveals a traditional interior with large principal rooms featuring oversized windows that allow you to take in the beautiful nature surrounding the property making each room feel both bright and spacious. A formal living room and dining room are found off the main foyer with easy access to the kitchen. An oversized sunken family room is open to the kitchen and will be where your family spends the most time. A newly finished main floor bedroom is also located here with wall-to-wall closet space as well as a full washroom. Two main floor powder rooms as well as a mud room finish off the primary living space.

The second level of this home features a primary bedroom that runs along the back of the home. A large den found off the bedroom is a perfect reading space or additional office space. Two additional bedrooms are both generous in size and have ensuite access. Convenient second floor laundry.

The lower level of this home features two additional bedrooms, a main bathroom as well as plenty of recreation space, spanning the entire width of the home. Walk-out to your fantastic backyard with expansive stone patios, saltwater pool with hot tub and waterfall. The cedar-lined pergola with gas fireplace will be the perfect spot to spend summer evenings. Ample grass space remains, all while being surrounded by towering trees and the sound of the creek. A special property like this doesn't come around very often.
