## ARTICLE II GENERAL COVENANTS, CONDITIONS, AND RESTRICTIONS

**Section 1. Approval of Plans.** No building, fence, wall, structure, improvement, or obstruction shall be placed or permitted to remain upon any part of said properties unless a written request for approval thereof containing the plans and specifications, including exterior color scheme, has been approved in writing by the Architectural Control Committee as provided herein. The decision to approve or disapprove proposed plans rests entirely with the Architectural Control Committee (ACC).

**Section 2. Floor Area.** The floor area of a one-story house in this Subdivision shall not be less than 2,200 square feet on the ground floor. For the purpose of the Covenants, eaves, steps, and open porches shall not be considered as part of a building, provided, however, that this shall not be construed to permit any portion of a building on a Lot to encroach upon another Lot. Two-story and tri-level homes shall not have less than 1,200 square feet on the main level and 2,200 total square feet exclusive of covered porches, entrances, or patios. No split entry homes, mobile homes, or pre-built homes will be allowed. No residence shall be in excess of two stories above ground. No shack, tent, trailer house, or basement only house shall be used within the Subdivision for living quarters, permanent or temporary.

**Section 3. Garages.** All houses shall have an enclosed garage, which holds no less than two cars. All floor area requirements in Section 2 above shall be exclusive of the required garage area. All garages shall be attached and match the construction standards of the house as well as be constructed of good quality material and workmanship.

**Section 4. Exterior Appearance.** Each house in this Subdivision shall have brick, stone, or stucco on the front exposure. As a minimum, brick, stone or stucco shall be used either on full-height columns on the sides of the garage or full wainscot on the front of house including on both sides of the garage with front corners wrapped a minimum of two feet (2'). It is encouraged that at least one of the following be included on the front elevation: decorative wood applications such as columns, corbels, crown and dentil molding and porches, boxed or returned soffets. Other features

might include windows with rounded tops, bay windows, or pop-out box windows if they are incorporated into the roofline. The plans for each home will be reviewed individually for overall appearance of the elevation when the plans are submitted to the Architectural Control Committee. No vinyl siding will be allowed.

**Section 5. Roofs.** Broken rooflines, gables, hip roofs, etc., are strongly encouraged. Roofs must be of at least 6 in 12 pitch, and shingles must at a minimum be an architectural relief shingle with a P-25-year minimum warranty. No gravel roofs will be allowed. Roofs must be approved by the Architectural Control Committee along with the colors of the exterior of the house.

**Section 6. Colors.** Exterior colors of earth tones or grays shall be required for the body of the house. Bright or bold colors or very dark body colors shall not be allowed. Approval of exterior colors must be obtained from the Architectural Control Committee.

**Section 7. Landscaping.** Landscaping of the yard adjacent to all structures must be completed within **thirty (30)** days of completion of the structure, and must be approved in advance of installation by the Architectural Control Committee.

**Section 8. Vehicle Storage.** Parking of boats, trailers, motorcycles, trucks, truck-campers, and like equipment, or junk cars or other unsightly vehicles, and like items, shall not be allowed on any part of said properties nor on public ways adjacent thereto excepting only within the confines of an enclosed garage or other approved enclosure, and no portion of same may project beyond the enclosed area. Parking of automobiles or other vehicles on any part of the properties or on public ways adjacent thereto shall be prohibited except within garages, carports, or other approved areas. Any variance to allow a deviation to these vehicle storage requirements must be approved in writing by the ACC and all surrounding neighbors. The Architectural Control Committee shall be the sole and exclusive judges of approved parking areas.

**Section 9. Grazing Lease, Animals and Fences.** Because of its location in a rural part of Gillespie County, the land within the Subdivision is considered agricultural for property tax purposes and currently is subject to a grazing lease. To preserve the agriculture designation, each Lot may erect a fence around the residential portions of the property, but shall leave open such land within the Lot as is necessary for cattle to continue to move freely between each Lot of the subdivision.

In the event a Lot owner wishes to fence the perimeter of his or her entire Lot, the Lot owner may keep on the Lot, at a maximum, the minimum number of farm animals required by Gillespie County to preserve the agriculture exemption for property tax purposes. All dogs and cats or other household pets kept on these premises shall be fed and cared for and shall be adequately fenced and controlled so as not to annoy or trespass upon the use of the property of others. Dogs and cats shall not be allowed to run at large, and any violation is subject to formal complaint to local law enforcement or animal control.

Fences are not required. If a fence is desired, the Architectural Control Committee shall approve the plans prior to construction. Fences shall be of good quality and workmanship and properly maintained.

**Section 10. Antennae and Satellite Dishes.** Installation of radio and/or television antennae or satellite dishes is prohibited outside of a building without written consent from the Architectural Control Committee. Regular local antennae must be in the garage attic. A satellite dish is allowed on the back of the home or side of the home under the eaves. The Architectural Control Committee may approve a satellite dish to be installed at other locations if screened from street view.

**Section 11. Setbacks.** No structure shall be allowed within a 50' setback, no water well or septic system shall be allowed within a 75' setback, and in all other respects residences must meet the Gillespie County Codes for zoning and ordinances.

**Section 12. Additional Easements.** There is a ten-foot (10') easement shown on the recorded plat along the rear, front, and side lines of all lots and / or tracts and in the streets, alleys, boulevards, lanes, and roads of the subdivision, and a ten-foot (10') easement along the other boundaries of all streets, boulevards, lanes, and roads, where property lines of individual lots and / or tracts are deeded to the center line of said avenues and a twenty-foot (20') easement along the entire perimeter of the Subdivision for a permanent public utility, irrigation, and drainage easement. Within these easements no structure, planting, or other material shall be placed or permitted to remain which may damage or interfere with the installation and maintenance of the utilities or which may change the direction of the flow of the water through drainage channels in the easements. The easement area of each Lot and all improvements in it shall be maintained continuously by the Owner of the Lot, except for those improvements for which a public authority or utility is responsible.

**Section 13. Outbuildings.** All outbuildings shall be constructed of quality building material and shall be of quality and character that will be in harmony with the house on said Lot. All outbuildings are subject to Architectural Control Committee approval prior to construction.

**Section 14. Nuisances.** No rubbish or debris of any kind shall be placed or permitted to accumulate anywhere upon the property including Lots, Common Area or vacant lots, and no odor shall be permitted to arise therefrom so as to render the property or any portion thereof unsanitary, unsightly, offensive or detrimental to the property or to its occupants, or to any other property in the vicinity thereof or to its occupants. No noise or other nuisance, as described by county ordinances, as amended from time to time, shall be permitted to exist or operate upon any portion of the property. No party or other activity in a Common Area or Lot which makes or causes to make noises which might tend to unreasonably interfere with the peace and quiet of Owners or occupants of Willow Creek Estates shall be allowed. No Owner shall permit any party or other activity in the Common Area or such Owner's dwelling unit which makes or causes to make noises which might tend to unreasonably interfere with the peace and quiet of the other Owners or occupants. No radio or other sound system shall be operated on the Property except at a low sound level. No offensive noise, language or behavior is allowed. The discharge of any type of centerfire firearm on the Property is generally prohibited. However, due to the rural nature of the Subdivision, the occasional discharge of small caliber firearms for the riddance of unwanted snakes, vermin, etc. will be allowed. Violations of this provision are subject to formal complaint to the Sheriff's Department.

**Section 15. Conducting Business on Properties.** No business shall be conducted on the above properties that cannot be conducted within the residence of the Owner as permitted by law. No signs shall be installed to advertise said business.

**Section 16. Sewer Connections.** All bathroom, sink, and toilet facilities shall be located inside the dwelling house or other suitable appurtenant building and shall be connected by underground pipe to septic or sewer wet line connections installed by either the homeowner or applicable governmental unit.

**Section 17. Driveways.** All Lots shall access the state highway, Route 1323, via the Subdivision's main entry road, Slate Rock Road, only and no other private driveways shall be allowed. All private driveways shall be surfaced with concrete, asphalt, caliche or gravel and must be designed and constructed in such a way that they will not cause any damage to the subdivision's entry road or any town road nor create any hazard to the public as they travel on the subdivision's entry road or any town road.

To meet this requirement, the Architectural Control Committee will determine (based on the specific location) whether a culvert is required and, if so, the minimum diameter and the length of the culvert. It will also determine the angle and slope of that portion of the private driveway that intersects with the subdivision's entry road and whether any erosion control devices must be installed at or near the intersection to minimize damage to the subdivision's entry road.

The minimum road width at the intersection shall be 20 feet, with a minimum width clearance of 24 feet and a steel culvert, if necessary, no less than 30 feet. The minimum height clearance, free of trees, wires, etc., shall be 16 feet. If the driveway is not paved with either concrete or asphalt, it shall have a road bed of 6 inches of 2-3" breaker rock covered with four inches of  $\frac{3}{4}$  inch aggregate gravel at grade. The driveway within the area of the public right-of-way shall slope away from the public road at a minimum of 1% and a maximum of 5% and for 15 feet from the entrance to the subdivision's entry road to prevent erosion onto the subdivision's entry road.

The angle of any intersection of a town road and driveway shall be no less than 90 degrees. Any proposed driveway shall meet the minimum standards outlined below throughout its length to allow for possible ingress of emergency vehicles:

- Road width 14 ft.
- Width Clearance 14 ft.
- Height Clearance 16 ft.
- Maximum grade 15%

The roadbed shall consist of 6 inches of 2-3" breaker rock covered with 4 inches of  $\frac{3}{4}$  " gravel. At the end of the driveway, a circle drive or cul-de-sac of 60 ft. radius shall be provided or another method provided to allow turnaround of service and emergency vehicles.

**Section 18. Signs.** No sign of any kind shall be displayed to public view on any building or building site on said properties except a professional sign of not more than five (5) square feet

advertising the property for sale by an owner to advertise the property. If a property is sold, any sign relating thereto shall be removed immediately, except that a "Sold" sign may be posted for a reasonable period following the sale. Notwithstanding any provision to the contrary, signs of any and all sizes and dimensions may be displayed by the Declarant, without limitation thereto, on Lots owned by said Declarant. The Declarant or the Neighborhood Association, if there is one, may display a sign of any size and dimension, without limitation thereto, for subdivision identification. No real estate signs, or signs of any kind, except for subdivision identification, may be displayed on any Common Area except for the Developer's designated marketing agent for that Subdivision, if there is one.

**Section 19. Waste Disposal.** No Lot or building site included within this Subdivision shall be used or maintained as a dumping ground for waste material. Incinerators are not permitted. Receptacles for storage of trash, garbage, etc. shall be maintained in a sanitary and clean condition.

**Section 20. Construction Equipment.** No machinery, building equipment, or material shall be stored upon site until the builder is ready and able to immediately commence construction. Such building materials must be kept within the property line of such building site upon which the structure is to be erected.

**Section 21. Damage to Improvements.** It shall be the responsibility of the builder of any residence in this Subdivision to leave street, curbs, fences, and utility facilities free of damage and in good and sound condition at the conclusion of the construction period. It shall be conclusively presumed that all such improvements are in good sound condition at the time building is begun on each Lot unless the contrary is shown in writing at the date of conveyance or by date of possession, whichever date shall first occur, which notice is addressed to a member of the Architectural Committee.

**Section 22. No Hazardous Activities.** No activities shall be conducted on the Property and no improvements constructed on any property, which are or might be unsafe or hazardous to any person or property.

**Section 23. Unsightly Articles.** No unsightly articles shall be permitted to remain on any Lot so as to be visible from any other portion of the Property. Without limiting the generality of the foregoing, refuse, garbage and trash shall be kept at all times in such containers and in areas approved by the Board of Directors. No clothing or fabrics shall be hung, dried or aired in such a way as to be visible to other property, and no equipment, compressors, containers, lumber, firewood, grass, shrub or tree clippings, plant waste, metals, bulk material, scrap, refuse or trash shall be kept, stored or allowed to accumulate on any Lot except within an enclosed structure or as appropriately screened from view. No vacant residential structures shall be used for storage of building materials.

**Section 24. Exemption of Declarant.** Nothing contained herein shall limit the right of Declarant to subdivide or re-subdivide any portion of the Property to grant licenses to reserve rights-of-way and easements with respect to Common Area to utility companies, public agencies or others, or to complete excavation, grading and construction of Improvements to and on any portion of the Property owned by Declarant, or to alter the foregoing and its construction plans and designs, or

to construct such additional Improvements as Declarant deems advisable in the course of development of the Property so long as any Lot in the Property remains unsold. Such right shall include, but shall not be limited to, erecting, constructing and maintaining on the Property such structures and displays as may be reasonably necessary for the conduct of Declarant's business of completing the work and disposing of the same by sales, lease or otherwise. Declarant shall have the right at any time prior to acquisition of title to a Lot by a purchaser from Declarant to grant, establish and/or reserve on that Lot additional licenses, reservations and rights-of-way to Declarant, to utility companies, or to others as may from time to time be reasonably necessary to the proper development and disposal of the Property. Declarant may use any structures owned by Declarant on the Property as model home complexes or real estate sales or leasing offices. The rights of Declarant hereunder may be assigned by Declarant to any successor in interest in connection with Declarant's interest in any portion of the Property, by an express written assignment recorded in the Official Public Records, Gillespie County, Texas.

**Section 25. Architectural Control.** The Architectural Control Committee's decision is final and binding on all issues.

**Section 26. Common Area.** The Common Area to be owned and maintained by the Willow Creek Estates Owners Association at the time of the conveyance of the first Lot is described as thirty feet (30') on either side of the centerline of the Subdivision's entry road, labeled Slate Rock Road on the plat of Willow Creek Estates, which was filed and recorded in Gillespie County, Texas.

### ARTICLE III ARCHITECTURAL CONTROL

**Section 1. Architectural Control Committee.** A committee of three persons shall act as an Architectural Committee and shall, prior to any new construction be furnished with one set of detailed plans and specifications of any proposed improvement and shall be allowed fifteen (15) days to review said plans, drawings, and specifications. If said Committee shall approve the proposed Improvement, or any modification or alteration thereof, they shall so indicate by the dating and signing of the set of plans by a member of the Committee, and their approval shall be construed as full compliance with the provisions of these Covenants. Said Committee shall have sole discretion to determine what shall be substantial compliance with said Covenants. No building shall occupy any portion of said Subdivision without prior consent of said Committee.

**Section 2. Discretion of Committee.** The decision to approve or disapprove proposed plans rests entirely with the Architectural Control Committee, and shall be authorized to issue rules relating to the implementation of these Declarations, including governing the design, construction, location, and appearance of all Improvements and landscaping on the Property.

**Section 3. Committee Membership.**

(a) A majority of said Committee is empowered to act for the Committee. In the event any member of the Committee is unable to act or fails or desires not to act, the remaining Committee members shall appoint an Owner of a Lot in said Subdivision to serve on said Committee, all of whom serve without compensation.

(b) Upon the sale of the last Lot of the last Phase in said Subdivision, the work of the initial Committee shall be deemed completed, and said Committee members shall then be automatically released from all responsibilities thereto. If there is a Neighborhood Association, notwithstanding any other provision to the contrary in the Covenants, Conditions and Restrictions for this Subdivision, after the Declarant has sold all the Lots in the properties, and not before, the then seated Directors of the Neighborhood Association shall automatically become the Architectural Control Committee. Amending this instrument shall not affect this provision.

## **ARTICLE VII ASSESSMENT**

**Section 1. Creation of the Lien and Personal Obligation of Assessments.** The Declarant, for each Lot owned within the Properties, hereby covenants, and each Owner of any Lot by acceptance of a deed therefore, whether or not it shall be so expressed in such deed, is deemed to covenant and agree to pay to the Association: (a) an initial assessment of two-hundred fifty dollars (\$250.00) for each Lot payable at closing, and (b) a transfer fee, which is an assessment of one-hundred dollars (\$100.00) of future closings that follow the initial closing, and (c) annual assessments or charges, and (d) special assessments and such assessments to be established and collected as hereinafter provided. The assessments, together with interest, costs, and reasonable attorney's fees, shall be a charge on the land and shall be a continuing lien upon the Property against which each such assessment is made. Each such assessment, together with interest, costs, and reasonable attorney's fees, shall also be the personal obligation of the person who was the Owner of such Property at the time when the assessment fell due. However, the personal obligation for delinquent assessments shall pass to his successors in title. The Board or its authorized representative may enforce the obligations of the Owners to pay such assessments by commencement and maintenance of a suit at law or in equity, or the Board may exercise the power of foreclosure and sale pursuant

to this Declaration to enforce the liens created hereby. A suit to recover a money judgment for an unpaid assessment shall be maintainable without foreclosing or waiving the lien hereinafter provided.

**Section 2. Regular Assessments.** All Owners, including Declarant, are obligated to pay regular assessments to the Treasurer of the Association on a schedule of payments established by the Board. See Section below "Maximum Annual Assessments" for the amount of the assessment.

(a) "Purpose of Regular Assessments" The proceeds from regular assessments are to be used to pay for all costs and expenses incurred by the Association including legal and attorneys fees and other professional fees, for the conduct of its affairs, including without limitation the costs and expenses of construction, improvement, utilities, protection, maintenance, repair, management and operation of the Common Area, including all improvements located on such areas owned and/or managed and maintained by the Association, and an amount allocated to an adequate reserve fund to be used for repairs, replacement maintenance and improvement of those elements of the Common Area, or other property of the Association that must be replaced and maintained on a regular basis (collectively "Expenses").

(b) "Maximum Annual Assessment" – For the year 2017, the maximum assessment shall be four hundred and No/100 dollars (\$400.00 per year) per Lot prorated to the end of the calendar year and billed annually, quarterly, or as otherwise decided by the Association.

(1) From and after January 1 of the year immediately following the conveyance of the first Lot to an Owner, the maximum annual assessment may be increased each year not more than 15% above the maximum assessment for the previous year without a vote of the membership.

(2) From and after January 1 of the year immediately following the conveyance of the first Lot to an Owner, the maximum annual assessment may be increased above 15% by a majority vote of a quorum of members who are voting in person, by proxy, or by written or absentee ballot at a meeting of the Homeowners.

(3) The Board of Directors may fix the annual assessment at an amount not in excess of the maximum.

**Section 3. Limited Assessments.** Notwithstanding the above provisions with respect to regular and special assessments, a Board may levy a Limited Assessment against a Member as a remedy to reimburse the Association for costs incurred in bringing the Member and/or such Member's Lot into compliance with the provisions of the governing instruments for Willow Creek Estates.

**Section 4. Special Assessments for Capital Improvements.** In addition to the annual assessments authorized above, the Association may levy, in any assessment year, a special assessment applicable to that year only for the purpose of defraying, in whole or in part, the cost of any construction, reconstruction, repair, or replacement of a capital improvement upon the Common Area, including fixtures and personal property related thereto, provided that any such assessment

shall have the assent of two-thirds (2/3) of the votes of each class of members who are voting in person or by proxy at a meeting duly called for this purpose.

**Section 5. Uniform Rate of Assessment.** Both annual and special assessments must be fixed at a uniform rate for all Lots in each class of membership and may be collected on a monthly, quarterly, or annual basis at the discretion of the board.

**Section 6. Date of Commencement of Annual Assessments: Due Dates.** The annual assessments provided for herein shall commence at the time of the conveyance of each Lot to an Owner. The first annual assessment shall be adjusted according to the number of months remaining in the calendar year. The Board of Directors shall fix the amount of the annual assessment against each Lot at least thirty (30) days in advance of each annual assessment period. Written notice of the annual assessment shall be sent to every Owner subject thereto. The due dates shall be established by the Board of Directors. The Association shall, upon demand, and for a reasonable charge, furnish a certificate by an officer of the Association setting forth whether the assessments on the specified Lot have been paid. A properly executed certificate of the Association as to the status of assessments on a Lot is binding upon the Association as of the date of its issuance.

**Section 7. Effect of Nonpayment of Assessments: Remedies of the Association.** Any assessment not paid within thirty (30) days after the due date shall bear interest from the due date at the rate of 18% per annum. The Association, or any Owner, may bring an action at law against the Owner personally obligated to pay the same, or foreclose the lien against the property. No Owner may waive or otherwise escape liability for the assessments provided for herein by non-use of the Common Area or abandonment of his Lot.

**Section 8. Right to Enforce.** The Association has the right to collect and enforce its assessments pursuant to the provisions of this Declaration.

**Section 9. Subordination of the Lien to Mortgages.** The lien of the assessments provided for herein shall be subordinate to the lien of any first mortgage. Sale or transfer of any Lot shall not affect the assessment lien. However, the sale or transfer of any Lot pursuant to mortgage foreclosure or any proceeding in lieu thereof shall extinguish the lien of such assessments as to payments which became due prior to such sale or transfer. No sale or transfer shall relieve such Lot from liability for any assessments thereafter becoming due or from the lien thereof.

**Section 10. Property Exempt from Assessments.** The following property subject to this declaration shall be exempt from the assessments created herein:

- (a) All properties expressly dedicated to and accepted by a local public authority.
- (b) Any local properties owned by the Association.
- (c) Any properties owned by the Declarant.
