Home Energy Score

Official Assessment | ID# 645438

The Home Energy Score is a national rating System developed by the U.S. Department of Energy. The Score reflects the estimated energy use of a home based upon the home's structure and heating, cooling, and hot water systems. The average score is a 5. Learn more at HomeEnergyScore.gov.

HOW MUCH ENERGY IS THIS HOME LIKELY TO USE?

Electric: 9,329 kWh/yr (\$0.18/kWh).....	\$1,697
Natural Gas: 867 therms/yr (\$1.48/therm).....	\$1,283
Other:	\$0
Solar Generation:	(\$0)
TOTAL ENERGY COSTS PER YEAR	\$2,980

How much solar energy does this home generate?

_____ kWh/yr

THIS HOME'S CARBON FOOTPRINT:

- Actual energy use and costs may vary based on occupant behavior and other factors.
- Estimated energy costs were calculated based on current utility prices in your area.
- Carbon footprint is based only on estimated home energy use. Carbon emissions are estimated based on utility and fuel-specific emissions factors provided by the OR Department of Energy.
- This report is valid for eight years from the assessment date. A free reprint of the report is available from us.greenbuildingregistry.com with updated utility and carbon information annually.
- **This report meets Oregon's Home Energy Performance Score Standard.**

Score today:

PRIORITY ENERGY IMPROVEMENTS ¹

FEATURE	TODAY'S CONDITION ³	RECOMMENDED IMPROVEMENTS
Air Conditioner	10.0 SEER	When replacing, upgrade to ENERGY STAR
Envelope/Air sealing	Not professionally air sealed	Professionally air seal
Heating	Gas furnace 80% AFUE	When replacing, upgrade to ENERGY STAR, minimum 9.0 HSPF (Heating Season Performance Factor)
Knee Wall insulation (95 ft ²)	Knee wall insulated to R-0	Insulate knee wall to at least R-15

ADDITIONAL ENERGY RECOMMENDATIONS ²

FEATURE	TODAY'S CONDITION ³	RECOMMENDED IMPROVEMENTS
Attic insulation	Ceiling insulated to R-38	Insulate to R-38 or R-49 if code requires it
Duct sealing	Un-sealed	Reduce leakage to a maximum of 10% of total airflow
Duct insulation	Un-insulated	
Floor insulation	Insulated to R-30	
Foundation wall insulation	Insulated to R-0	
Wall insulation	Insulated to R-21	
Water Heater	Gas 0.64 UEF	
Windows	Double-pane, low-E glass	
Solar PV	N/A	

1. To achieve the "Score with Priority Improvements" all recommended improvements in the Priority Energy Improvements section must be completed. All together, these priority improvements have a simple payback of ten years or less.

2. Additional energy efficiency improvements may take longer than ten years to make a return on investment but can have a significant impact on the comfort, efficiency and environmental impact of your home.

3. Today's Condition represents the majority condition for that feature in the home. Additional energy efficient features may be present in the home and not accounted for in this report. Trees and other features may provide additional energy efficiency benefits to the building.
